

UNIVERSITY OF
NORTHERN COLORADO

School of Mathematical Sciences

**Northern Colorado Math Circle
Student Summer Math Camp**

Community Principles

The Northern Colorado Math Circles Summer 2018 Summer Math Camp aims to enhance participants' mathematical problem-solving skills that will help them throughout their academic lives. We believe to accomplish this goal we need to work in an environment that **values** and **respects all participants' ideas**. Hence, we will request everyone to **encourage** each other and **not use inappropriate language**. It is also important that we respect each other's time by **being on time** and **being on task** throughout the camp.
